FILE**

**May 2018**

**Location:** Birmingham Airport    **System:** K-K Air-Screen Zero (Fire-Rated)    **Location:** Airside  
**Installation:** 2 nights    **Hoarding quantity:** 58 linear metres    **Project Duration:** 4 months

**K-K Air-Screen Zero** is our new fire-rated 35mm lightweight modular hoarding system ideal for airports.

The self-supporting hoarding requires no drilling into the floor and creates a smooth and clean façade.

Panels are 2.7m high and we fitted a mesh screen above (to the ceiling) to keep dust inside the work area. The installation is airside and we worked in a live airport environment, minimising any disruption.

Air-Screen Zero has a Class 0 Surface Spread of Flame rating. Panels interlock to create a vertical pencil-line finish and steel bases and vertical supports ensure high levels of stability and impact resistance.

**Location: Luton Airport**

**System: K-K Air-Screen Zero (Fire-Rated)**

**Location: Airside**

**Installation: 3 hours**

**Hoarding quantity: 40 linear metres**

**Project Duration: 1 month**

Air-Screen Zero was also used to hoard off an airside shopping area in Luton Airport where retail units were being re-configured and re-furnished behind the hoarding. A mesh dust screen was installed.
