

Location: Cardiff

Client: Cardiff City Council

Project: Riverwalk hoardings

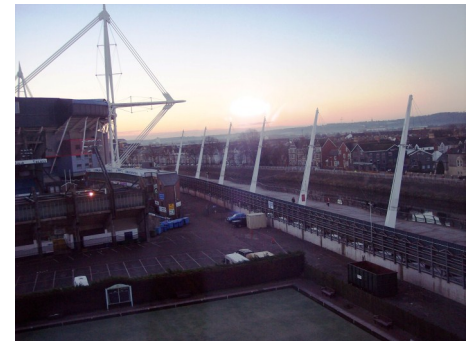

Contractor: n/a, installed by Kwik-Klik

System: *Ultraspan Extra*

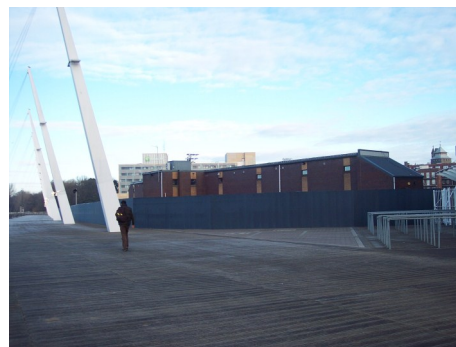

Duration: 10 years+

The Riverwalk in Cardiff welcomes thousands of international visitors each year to the Millennium Stadium

The new 250 linear metre hoarding restores a pristine appearance to the iconic walkway by the River Taff

2.5 metre high *Ultraspan Extra* hoardings were specified in grey to match the stadium's roof trim

Location: Cardiff **Client:** Cardiff City Council **Project:** Riverwalk Hoardings
Contractor: n/a, installed by Kwik-Klik **System:** *Ultraspan Extra* **Duration:** 10 years+

Kwik-Klik replaced the worn and shabby timber panels (left) with a durable and robust alternative (right)

The new hoarding panels are made of 100% recycled PVC. The system is re-usable and 100% recyclable

"The hoarding is maintenance-free and provides a professional finish. It lines the main pedestrian route from Cardiff rail station and creates an excellent first impression. We also hope to add event-specific graphics to the hoarding. For example, for the 2012 Olympics."

Matt Wakelam
Infrastructure Project Manager
Cardiff City Council
